FINAL TAX RETURNS

People such as independent business proprietors, farmers and freelancers must calculate their income earned over the one-year period from 1 January to 31 December of the preceding year, calculate the amount of tax to be levied on this sum and file their income tax returns. However, this is not necessary for the majority of salary income earners.

However, salary income earners too will have to file income tax returns in some cases, for example:

- In cases where the person's yearly income from his or her salary is more than 20 million yen
- In cases where the person's salary is paid at more than two places

A copy of the income tax returns can in some cases be necessary when extending or changing status of residence, for example, so you should keep hold of a copy.

* In the event that you have a dependent in your own country, you can receive a deduction for dependents. Therefore, even if you are a salary income earner but are not receiving a deduction for dependents, you should file your income tax returns and then receive a tax refund.

When to file: Tuesday, February 16 to Monday, March 15, 2021

Necessary documents for income tax returns:

- ① income tax returns form (available at your tax office) (you'll need your Individual Number – your "My Number" – to fill out some of these)
- ② items proving your income over the previous year (certificate of income and withholding tax, or proof of payment form)
- ③ Residence card
- ④ Items necessary to receive a deduction for dependents (birth certificate of dependent in your own country, proof of remittance of money etc.)
- ⑤ Items necessary for insurance premium deduction (Proof of insurance deduction)
- ⑥ Items necessary for medical expense deduction (receipts)
- ⑦ Personal seal or signature etc.
